

Celebrate good times, come on!

A lot of people think that care at home is just for the older generation. However, Home Care Preferred is available to help where someone is rehabilitating. Here's Androula's story:

“Dear Shirli-I,

Not having used a Care Agency before, I was worried at the thought of having strangers in my house helping me with intimate functions such as showering and washing my hair. But as I was anxious to return home after 13 weeks in residential care with a broken leg, I took the plunge and arranged for HCP to send in a daily carer. I need not have worried. The carers are all very kind and friendly and happy to use their own initiative - for example offering to water my garden plants in the hot weather.

The office staff are helpful and efficient and provide a very flexible service which allowed me to cancel a scheduled visit with only 2 days notice, if I am expecting a visitor or had a hospital appointment.

As my mobility has improved I reduced the visits to 3 days a week but continue to receive the same high standard of service. I would be happy to recommend Home Care Preferred to anyone in a similar position to me or who needs care for a friend or relative.

*Regards,
Androula”*

October started with the 100th birthday celebration of Phyllis, who is one of the oldest client's at Home Care Preferred. To celebrate with Phyllis, we arranged for a 1950 Jaguar (many thanks to Whitewebbs Motor Museum for this act of generosity) to collect her from her home and bring her to the Home Care Preferred office where she was greeted by Enfield's Deputy Mayor:

Thank you also to our friend Mark Rudling who helped with vehicle arrangements and thanks to him and Sophia Waterhouse for photography.

Music was provided by the local radio station Radio Jj who hosted the show from our Independent Living Equipment shop. To mark Phyllis's birthday, we all celebrated with champagne and canapés, before taking her for a drive to West Lodge Park for afternoon tea where she celebrated in style!
